

Power to Change

Impacting Our Community Through Power to Change

God wants to use each of us to minister to people in our community, during the Power to Change campaign. There are four ways in which you can be involved.

The Neighbourhood Strategy:

Our church has made a commitment to reach out to _____ homes divided into blocks of 50 homes and we need two trained volunteers from our congregation for each block. Will you consider partnering with an associate in reaching out to a block of 50 homes? Your investment of time can change a person's life for eternity!

Special Events and Existing Church Ministries:

Over the next several weeks we will be involved as a congregation in using the Power to Change theme to reach out through our existing ministries of

As you bring people to these events you become part of the Power to Change campaign. In addition, our church will be participating in the community-wide _____ outreach scheduled for _____ 2001 and _____ outreach scheduled for _____ 2001.

Other special outreach events in our region are located on the Power to Change information website: www.powertochange.com

Please prayerfully consider whom you will bring to these events in the days ahead and begin to pray for them. The Power to Change training will assist you in how to follow-up with people who come to outreach events.

Personal Opportunities:

During the campaign we are asking you to pray for and trust God for "divine appointments" for up to ten people with whom you can share with as a "way of life." This includes neighbours and friends, those at work or school and members of your family. The training will show you how to initiate the conversation, share Christ and follow-up.

Call Center/Internet Response:

This is a **bonus** strategy! Individuals will respond to the media campaign via telephone and the internet. As a trained volunteer, you may be phoned to deliver a Power to Change package to someone.

Please note: To participate in any of these areas, you will need to take the Power to Change training. The nearest training seminars to our church are listed on the information website: www.share.powertochange.com

.....
I would like to be involved, sign me up!

(You will be contacted by our Power to Change local church coordinator)

- In the neighbourhood strategy
- In the special events and existing church ministries
- In developing a personal opportunities plan

I have taken the Power to Change training; yes no

I plan to take the Power to Change training; yes no
